

**MOBB**<sup>®</sup>  
Professional Medical Wear

2018-2019

This year, we at MOBB are proud to celebrate our 20th Anniversary! From a small home garage, a father and daughter came up with the idea to not only make and design uniforms for professionals, but to make sure they were of the best quality, best value and upmost comfort. Twenty years later, we still have those same values, the only thing that changed was that small garage to our now MOBB Headquarters that has a strong client base across North America and around the world.

With our design team always coming up with new styles, a new line was created; Mentality by MOBB. This line has quickly become a fan favorite due in part to its soft to the touch material and added Stretch.

The road leading up to where we are today has been wonderful, humbling, and not at all possible without the support of all of the people who choose MOBB again, and again. You are the reason for our success. You are the reason we strive for excellence. You are why we are here 20 years later, and for that we say THANK YOU!

Here's to another 20 years!

Sincerely,  
-MOBB.
